About the MONTHLY ALERT ...

Forestry Topics

1. Forests and Forestry

General treatments of the subject; forestry and society; topical issues; education; agency annual reports.

2. Forest Operations

a. Silviculture: silvicultural systems; economics; stand improvement; measurement; operations management; natural and artificial regeneration, genetics.
b. Engineering: road construction; protective works; logging; equipment.

3. Forest Injury and Protection

Insect damage and control; pesticide applications; insect and disease surveys; forest pathology.

4. Fire Management

All aspects, including presuppression, prevention education, behavior; fire weather.

5. Watershed Management, with Soil and Site Factors

Hydrology; runoff; sedimentation; erosion; climatology; meteorology; habitat regions; precipitation.

6. Range and Wildlife Management

7. Forest Recreation

8. Forest Products Research

Wood technology and utilization; markets and marketing; forest products industries.

Allied Topics

9. Life Sciences

Plant and animal ecology; botany; environmental quality; biochemistry; zoology; physiology; animal genetics.

10. Computer Science, Statistics and Mathematics

11. Social Sciences

Environmental policy; regional planning; landscape analysis and planning; behavioral psychology; personnel management; office procedure and management.

12. Other Topics

The **Species Index** and the **Subject Index** on the following pages identify

individual citations by narrower, specific topics, e.g., management treatments, problem areas, and geographic locations.

Sample *Monthly Alert* Citation:

The citations listed in this **Alert** are arranged in broad topical categories. This permits browsing by subject interest.

About Bureau of Land Management *Monthly Alert*

Bureau of Land Management *Monthly Alert* announces recent publications significant to natural resources management and research. These publications are located and made available through an interagency agreement between BLM and the USFS Forest Information Network. Subject areas are generally limited to renewable resources and fire management.

Most items listed in each *Monthly Alert* are reprints of current journal articles or research papers. They are sent to you at your office without charge upon receipt of your order (see inside back cover). Books and other large documents will be loaned to you for a specific period of time. Those items available for loan only are identified by a • beside the item in the citation.

The *Monthly Alert* is available to all BLM employees. It is operated by the BLM Library, Service Center, Denver, Colorado. BLM employees are cautioned not to use *Monthly Alert* services from Forest Service Service Centers. The BLM Library now provides these services.

About the BLM Library

The BLM Library is located at the Service Center. It performs a full range of library services for all BLM personnel at no charge. It has computer-based literature searching capability for all subject areas. Literature searches may be requested on BLM Form 1279-2. The BLM Library has extensive reference and access to libraries of every government agency, universities, private institutions and foreign governments. If you have a need for library assistance that cannot be obtained locally, contact:

MANAGEMENT ALERT Section

Monthly Alert's Management Alert section appears in this publication on a bi-monthly basis or every other month. Look for the "box" on the front cover as our signal to you that a Management Alert section is available.

Subject coverage of the Management Alert generally will touch on the following topics.

Administration	Management in Complex Organizations
Applied Psychology	Office Equipment and Services
Civil Rights Personnel	Management
Communication Systems	Policy Planning
Creativity	Program Management
Decision Sciences	Public Administration
Environmental Issues	Public Relations
Fiscal and Accounting Management	Research Management
Human Resources Management	Statistics
Job Satisfaction	Tests and Measurement
Legislative Issues	

This information should be of great interest to all levels of administrators, supervisors, managers, etc.

To order documents from the Management Alert section, write the letter "M" and the number (ex. M20) on the regular blue request form. It is important to include the letter "M" along with the assigned number so that it can be distinguished from the numbered items in the regular *Monthly Alert*.

BLM Library RECENT ADDITIONS Book List

Recent Additions Book List is a monthly listing of book titles that have recently been added to the BLM Library collection and are available for loan via the WESTFORNET order form. Each list is arranged by various subject headings in alphabetical order and shows author, title and date. Each title will be assigned a specific "R" number for ordering purposes. This "R" number is the order number that should be entered onto the WESTFORNET request form. Note that a title may be listed more than once due to the various subject headings assigned to it.

SAMPLE CITATION	
	Subject Heading
	Title of Book

• The copyright law of the United States
(Title 17, United States Code) governs the
making of photocopies or other
reproductions of copyrighted material.

• Under certain conditions specified in the
law libraries and archives are authorized to
furnish a photocopy or other reproduction.
One of these specified conditions is that the
photocopy or reproduction is not to be "used
for any purpose other than private study,
scholarship, or research." If a user makes a
request for, or later uses, a photocopy or
reproduction for purposes in excess of "fair
use," that user may be liable for copyright
infringement.

• This institution reserves the right to
refuse to accept a copying order if, in its
judgment, fulfillment of the order would
involve violation of copyright law.

I accept responsibility for
compliance should restrictions
apply to documents I am
requesting.
